

Cofense Managed Security Service Provider Partner Program

With the daily threat of a security event ever-present – and over 90% of attacks starting with a phish aimed at an employee¹ - businesses need to ensure they have adequate people, processes and technology in place to cope.

Cofense™ is the industry leader in phishing awareness and mitigation focused on stopping real phish that are the real problem. Managed Security Service Providers (MSSPs) are now able to offer our award-winning solutions as part of their security services portfolio. You can now offer your small and medium customers an affordable enterprise level of protection against phishing that satisfies their training requirements but actually protects them, too.

Our Cofense MSSP Partner Program is feature-rich, providing our partners with a long-list of benefits that will boost your profitability:

- State-of-the-art phishing solutions
- A predictable pricing program offering partners additional discounts as your business scales
- Free certification program
- Authorized Cofense MSSP partner logo
- Up to 12 months free Cofense PhishMe™ Professional Services
- Monthly, annual or consumption-based billing
- Access to the Cofense Customer Community
- Access to Cofense Partner Portal
- Free demonstration kits
- Marketing communications and demand generation support
- Integration with many [Security Technology Alliance Partners](#)

Top 5 Reasons to join the Cofense MSSP Partner Program

1. **Offer your customers an additional layer of protection:** Help build their resilience to cyberattacks from phishing threats that bypass existing security perimeters.
2. **Deliver phishing defense with ease:** Our Responsive Delivery capability available in Cofense PhishMe eliminates whitelisting issues, whilst our Playbooks feature can automate a year's worth of simulations in just 7-clicks.
3. **Easily communicate the results:** Demonstrate ROI of your customer's program with on-demand executive-level Board Reports.
4. **Cofense PhishMe Professional Services:** Certify and skill-up your team to provide a world-class anti-phishing program.
5. **Consistent & predictable revenue streams:** Choose from monthly, annual and consumption-based billing options.

Solutions Available in the Program:

Security Awareness

Cofense LMS™ - Provides ongoing employee education and training that is engaging, scalable and customizable. It also includes Computer Based Training (CBT) modules to satisfy compliance needs.

Build Resilience

Cofense PhishMe™ - A purpose-built SaaS platform that improves employee response to phishing attacks and empowers users to provide real-time threat intelligence by immersing them in a real-world spear phishing experience.

Cofense Reporter™ - An easy-to-use add-in that enables users to report suspicious emails with a simple click from their email client.

Speed Incident Response

Cofense Triage™ - Cofense Triage is the first phishing-specific incident response platform that stops attacks in progress. It operationalizes the collection and prioritization of employee-reported threats, whether directly from Cofense Reporter or other sources.

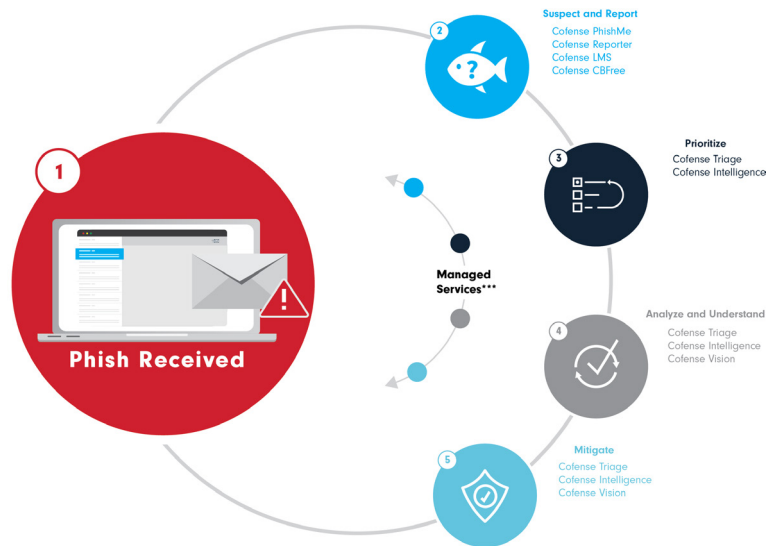

Cofense Vision™ - The first phishing-specific incident response platform that stops attacks in progress. It analyzes and prioritizes employee-reported emails, allowing operators to respond to real threats.

Cofense Intelligence™ - A phishing-specific threat intelligence solution that delivers the right information at the right time to help defend your network.

EFFECTIVE PHISHING DEFENSE - THE COFENSE APPROACH
